

Santiago, February 4, 1955

Dear Esther and Josh:

I feel guilty for not writing you before but I am sure you will forgive me when I'll tell you the news: I am getting married the 20th of this month!

Everybody here told me that I'm using american methods. Not very many people in Chile can do what we have done: to meet a girl on Christmas and to be married 55 days later. You will meet the girl soon and then you will be able to tell if I was right or not.

I'll be in Madison around the 25th of this month. If you ~~know~~ of a nice apartment or house, by any chance, I will appreciate very much letting me know.

I sent Lardy an abstract for the S.A.B. Meetings asking him to show it to you. It wasn't my best but under the circumstances I can do much thinking. At anyrate I send the abstract just to have something to say in the meetings because I think it might be important to find a job.

I have all settled the bussiness on the ONPG. It will cost around \$ 25 per gram. You can tell people who ask you about to contact me. If I remember correctly you wanted to place an order yourself for a few grams.

I will talk to you about many other things with regard to some offers I had here in Chile. Gasic is now in Chicago, there are rumors that he was send there to recuperate from a nervous breakdown.

If you have time drop me a line with the latest news in Madison.

With my best regards to both and the people in the lab.

Sincerely,

Boris

P.S. Please write to me to: Casilla 3600 instead of the other address because in the later I have lost a few letters
